Utilize Matterport's advanced camera system to map, render, and create lifelike showcases.

Increase Your Earning Potential:

With the ability to earn well over R205,000 monthly, Matterport opens new doors for income generation.

MATTERPORT FOR INSURANCE

The insurance industry is a delicate balance between risk assessment and claim management. With Matterport, assist key role-players in the insurance industry to make the necessary risk assessments, and better their capacity for claim management with accuracy.

ASSISTANCE IN

Claims Management

Remote Adjusting

Risk Engineering

Reinspection Review

Underwriting

KEY BENEFITS

Transparency

Efficiency/Cost

Consistency

Speed

OUR ASSESSMENT & PROPOSITION

	Underwriting & Risk Engineering	Property Claims
Problems	Inspecting is expensive	Lack of proper documentation should litigation arise
	Not inspecting means you miss-categorize risk	Sketching takes time and skills
	Current outsource inspections are of poor quality	Return visits & drive time cost time and money
	Current methods of underwriting provide poor documentation for proper policy assessment	Contractor fraud and abuse prevalent
	Difficult to prepare the 'right questions' in advance	Policyholder - contractor disputes common
Matterport Value Proposition	Reduce cost of inspection while raising quality	Best in class, court-friendly documentation
	Quote the right premium and avoid over/under insuring	Automate the sketch process
	Attain perfect record of asset for claims purposes	Remote adjust/inspect/quality assure
		Improve contractor-carrier-policyholder trust
The MP Digital Twin allows you to:	"...inspect at the cost of an outsourced inspection while increasing the quality higher than an inhouse inspection"	"...improve trust, communications and settlement time – all while saving money on operations and fraud & abuse"

HOW CAN WE BETTER THE INDUSTRY TOGETHER?

Claims management

Eliminate fraud

- Images & dimensions can't be tampered with.

Virtual adjusting

- No more going back on site & bothering policyholder.

Full documentation of all damage to a property

- No more going through hundreds of images at poor quality.

Accurate floor plan and a measuring tool

Commercial inspections

- Reduce risk by identifying key building components (gas shut-offs, electrical panels, emergency exits, and crucial safety data).
- Accurate policy assessment.
- Quality of Reporting -> Pull data like square footage & number of rooms for underwriting.
- Quality of Documentation.
- Easy collaboration & communication.

EXPANDING YOUR PORTFOLIO:

Versatile Use Cases:

From architectural visualizations to event space planning, the applications are endless.

Grow Your Client Base:

Work with a diverse range of clients, expanding your business reach.

SUPPORT AND TRAINING:

Comprehensive Training:

Receive full training on how to use Matterport technology effectively.

Ongoing Support:

Benefit from the continuous support that Matterport offers and take technology to its max.

“

There are risks and costs to a program of action. But they are far less than the long-range risks and costs of comfortable inaction.

HOW DOES IT WORK?

CAPTURE:

Scan real-world spaces using a Matterport camera of your own.

CREATE:

Upload your scans to the Cloud and create 3D Models of each space.

DISPLAY:

Show the world your creations through listings, websites, apps, or email.

ILLUSTRATED FINANCIAL MODEL

We've created an illustrated financial model based on real-world expected revenues and projections assuming a fulltime owner-led entrepreneur, working in the business.

There are many variables that could affect the actual outcome of your earnings, such as the hours worked, unit cost sold, territory size or number of cameras used.

For our model we've based projections on an initial single camera, with a second camera and operator added in month 8 and accounted for once off costs and monthly recurring costs.

Entrepreneur's own drawings / salary is excluded from the profitability calculation.

KEY TAKEAWAYS:

Projected Y1 Revenue: R1.6M Expenses: R218K Profit: R1.2M
